

iterator

map

string

support.hh

```
graph BT; support[support.hh] --> iterator[iterator]; support --> map[map]; support --> string[string];
```

The diagram illustrates a dependency or inheritance relationship. At the bottom center is a black rectangular box containing the text 'support.hh' in white. Three dark blue arrows originate from the top edge of this box and point upwards to three separate light gray rectangular boxes arranged horizontally above it. The leftmost box contains the text 'iterator', the middle box contains 'map', and the rightmost box contains 'string'. This visualizes 'support.hh' as a common foundation or support for the 'iterator', 'map', and 'string' components.
